Autonomous Zone @ IMDEX Asia 2027

Future of Sea, Land and Air Operations

About the Autonomous Zone

The Autonomous Zone showcases the latest advancements in autonomous technology across sea, land and air domains.

From cutting-edge drones to advanced robotic vehicles, the Autonomous Zone brings together industry leaders and innovators to shape the future of defence, security and commercial applications.

Autonomous systems are rapidly transforming the defence and security landscape, revolutionising operations ranging from intelligence, surveillance, and reconnaissance (ISR) missions to logistics support and medical evacuations (MEDEVACs), as well as frontline combat roles.

These systems encompassing uncrewed aerial, ground and maritime vehicles (UAVs, UGVs, and UMMVs) are enhancing operational speed, reducing risks to personnel and delivering powerful force-multiplying effects.

Key Highlights

Sea: Maritime Autonomy

- Autonomous underwater and surface vessels (AUVs & USVs)
- AI-enhanced maritime surveillance and reconnaissance
- Unmanned solutions for naval operations and offshore industries

Land: Autonomous Ground Vehicles

- Unmanned ground vehicles (UGVs) for defence and logistics
- AI-driven robotics for reconnaissance and support
- Smart automation for industrial and security applications

Air: Cutting-Edge Drone Technology

- Unmanned aerial vehicles (UAVs) for surveillance and delivery
- AI-powered navigation and autonomous flight systems
- Next-gen air mobility solutions for commercial and defence use
- Cutting-edge drone & counter-drone technology

Who can join?

Innovative SMEs advancing next-generation autonomous and artificial intelligence technologies for defence and security applications

Entitlements

Shell Scheme Structure	✓
Company Name on Fascia Board	✓
Needle-Punch Carpet	✓
Information Counter	1
Folding Chairs	2
Package Price (6 sqm)	\$S\$6,000
Registration Fee	\$S\$1,100

Price quoted is in Singapore Dollars (S\$) and subject to the prevailing goods and services tax for Singapore-registered companies.

All information is correct at the time of printing and is subject to changes.
